

Pro700 Wire and Valve Locator

Features

- Headset or External Speaker Response
- Locates Wire Path and Valves
- Long 27 inch metal wand
- Locates Breaks and Large Nicks
- 'D' Cell Batteries
- Hardshell Custom Case

PRODUCT DESCRIPTION

The Pro700 Wire and Valve Locator adds features not seen on valve locators, including an extra long metal wand for easy tracking, the option of using an external speaker instead of a headset when listening to signal, and D batteries for power. Old antiquated 'PVC pipes and tackle boxes' are no match for the power and sophistication of the Pro700.

PRODUCT FEATURES

- Receiver has Speaker, Headset, or Visual Indicators
- Pistol style receiver is extended for ease of locating
- Increased Receiver AC filtration
- Simple battery check of transmitter and receiver
- Custom rugged, slim carrying case
- Extra long metal wand
